

Geography	Rivers and Water Cycles
Assessment Milestones Study the human and physical geography of a region within the UK and a European region comparing differences and similarities. Describe and understand key aspects of human and physical geography including economic activity, the water cycle and land use. Use maps, atlases and digital resources to locate countries and describe features.	☐ I can describe where rainfall goes when it falls to Earth. ☐ I can understand the role the atmosphere has on the water cycle ☐ I can follow the River Thames on a map from source to mouth, identifying river features throughout. ☐ I can explore the ways in which people use and change some of the world's major rivers ☐ I can describe how water has helped to make these mountain ranges the shapes they are today. ☐ I can create a river or stream, and to see how changes in water flow affect the river or stream.
Key Vocab	River, stream, valley, mountain, hill, water cycle, flow, infiltration, percolation, source, mouth, estuary, sea, terrain, tributary, confluence, mouth, estuary, valley, (Thames) basin, urban, rural, village, town, city, capital city, gradient, meander
Final Outcome	A model of a river/stream
Location of final piece	Picture in Foundation books
